CONTROLLY'S BILL REDUCED.

NEW YORK, Dec. 16.—Judge Learned, of the Supreme Court at Albany, has decided to reduce the bill of Mr. Connolly to \$500,000. Connolly's friends expect to be able to raise this amount.

## TRAIL OF TWEED.

There was a large crowd at the Court of General Sessions this morning, to hear the trial of Tweed, who is accused of being the author of the great political scandal of 1872. He is in favor of keeping the party together; that although the prospects were hopeless for 1872 they were not so for the campaign of '73. In this time political issues would take a new turn, and in the meanwhile the party might be gathering up its strength. He attributed the present condition of things to the loss of confidence on the part of the people growing out of the corruptions of the party in New York.

The Legislature of Wyoming repealed the law conferring the right of suffrage on women, but the Governor vetoed the act, and thus saved Wyoming to the strong-minded. The Democrats were the chief advocates of the abrogation of the law, holding that it was necessary as a party measure to take the ballot away from women, because nearly all of the fair sex voted the Republican ticket.

## Politicians.

Ex-Senator George E. Williams was confirmed by the Senate Friday as Attorney-General vice Akerman resigned. The appointment is one eminently fit to be made, and seems to have been generally expected.

A large delegation of politicians from the Pacific coast waited upon the President some time since, to urge Mr. Williams for any vacancy that might occur in the Cabinet, and his name has frequently been mentioned by the press as a candidate for the position of Attorney-General.

Senator Sumner's proposition to effect a radical change in the internal revenue system is considerably talked of, but its success is doubtful. His scheme would abolish the office of Commissioner of Internal Revenue, and do away with most of the revenue officers. It is held to be impracticable to collect this tax by stamp as he proposes. On single illustrations will demonstrate this. A deed, mortgage or other instrument of writing bears upon its face its legality. If not stamped it is by far invalid and worthless to either party thereto, but not so with a barrel of whisky or a cask of rum. If the buyer can smuggle it into his cellar, it will sell for just as much without as with a stamp. It does not seem possible to dispense with the revenue machinery just yet, desirable as it may be to do so. The success of Mr. Sumner's bill therefore need not be expected the present session.

The Democrats of New Hampshire have renominated Weston for Governor. His election was an "accident" which can never happen again.

Mr. Humphrey Marshall is reported by the Cincinnati Journal to have the best chance for election to the United States Senate in Kentucky.

"According to present appearances," remarks a contemporary, "the 'new' Democrats are crawling out of the little end of the horn, while the 'passive' Democrats are in a dilemma, and do not know exactly which horn to take."

THE NIAGARA SHIP CANAL.—The project of the Niagara Ship Canal is being agitated again and the "National Commercial Convention" held at Detroit last week adopted the following resolutions on the subject:

Whereas, This convention is deeply impressed with this central thought, to wit: that the prosperity of any nation can only be found in the greatest prosperity of its individual members, and the various commercial and internal relations between them.

Resolved, That, in the opinion of this convention, the general government at Washington should at once adopt a liberal policy as to intercommunication between the lakes and the rivers leading to and from the centers of the states lying adjacent thereto.

Resolved, That, in the opinion of this convention, the construction of the Niagara Ship Canal is of great national importance, and should be left to Congress to be directed to do all in their power to procure an appropriation for that purpose.

Resolved, That the Legislature of the State of New York be requested to grant permission to the general government to appropriate the public territory for the purpose of carrying and constructing the Niagara Ship Canal.

Resolved, That one or more waterways by which the steamboats of the Mississippi can reach the harbors and anchorages of the Great Lakes are of such importance to so many states east and west that it has become a matter of national importance.

Resolved, That a copy of these resolutions, duly authenticated, be forwarded to the President of the United States and to each member of Congress.

PROBABLY THE LAST OF IT.

SECRET REPUBLICAN CAUCUS.

ST. LOUIS, Dec. 17.—The Liberal Republicans held a secret caucus in the Union City last night, but it is known that the address issued by the State Committee in the name of the party was endorsed and quite a number of additional signatures attached. A Legislative Committee to work up matters during the session.

He composed a list of names of the编辑, which his friends say he had written, and gave it to the editor of the paper, which has been held up against him by confinement and lack of exercise.

## THE EXCITEMENT.

Little else is talked of in the city to-day except the action of the grand jury. There was great excitement about the City Hall, where large crowds of politicians were congregated discussing the proceedings against the late Wm. C. Goings, who has been found guilty of twenty or more persons among whom are said to be men not heretofore publicly known as having been connected with city frauds and ballot-box stuffing. It is stated that two individuals under investigation have been arrested. Thomas C. Fields, one or more against some other parties connected with the City Hall management. It has been indicated that James M. Sweeny has been indicted for felony and that proofs against him are to be given to the grand jury. Another indictment is said to have been found against one notorious fellow who made 600 repeaters on last election. A well-known police judge has also been indicted for his connection with ballot-stuffing. The Grand Jury expect to get through all the laborious business till noon to-morrow.
